

Band Factory is available for two age groups, 9-12 or 13-19!  
Please check carefully for which information applies to you.

In this exciting program students form a rock band, filling the key positions of drums, bass, guitar, and vocal, and adding keyboard as well if possible. Weekly sessions introduce and reinforce technical and theoretical elements, while focusing on playing repertoire and jamming together. The band will perform at least twice in the year.

Students should have at least 1 year of experience in their chosen roles, and an audition with the instructor is recommended for each entrant.
